***I-ENG-A® of Central Indiana A Division of Veridus Group, Inc.*** is committed to presenting its insurance and litigation clients a diverse yet experienced and cost-effective group of professional forensic experts that can provide investigative support and assist in the control of soaring claims settlement costs.

Client service is a day-by-day commitment, by the principals and staff, to excellence.

## Investigate - Educate - Resolve

***I-ENG-A® of Central Indiana A Division of Veridus Group, Inc.*** was founded to provide the insurance claims industry, legal and other client representatives with a single source of contact for expertise and information relating to the practice of forensic engineering. It is the goal of the company and its associates to provide clear, concise and comprehensive information, findings and conclusions to claims adjusters, attorneys and risk management professionals in a professional, timely and cost-effective manner.

**I-ENG-A® of Central Indiana** is the forensic division of Veridus Group, Inc. The firm is a member of the Investigative Engineers Association (I-ENG-A®). I-ENG-A® was founded in 1991 as the first association of forensic and investigative engineers doing business with the property and casualty insurance industries. Being a member of I-ENG-A allows the member firm to tap into forensic engineering resources regarding claims investigation. No single firm, no matter its size or how broad based its coverage, can possibly provide the level of service and combined resources that the national network of I-ENG-A can offer.

**I-ENG-A® of Central Indiana** provides their clients with unbiased, comprehensive and concise investigative reports formatted to allow the reader to grasp difficult technical concepts and visualize the reasoning to support our conclusions.

**The Veridus Group** is a multi-faceted engineering firm focused on property condition, site assessment, water resources, hydraulics, utilities, grading and drainage. Based in Indianapolis and known for expert leadership in complex projects, Veridus applies over 70 years of experience to assist clients across the country in their projects. Formed in 2011, Veridus has served as the owner's technical representative on over 3 million SF of space and \$700M in project value. In addition, Veridus has completed more than 150 engineering projects in the State of Indiana including schools, industrial, retail, commercial and other types of projects. The Veridus staff uses their unique blend of engineering and construction acumen to provide and perform services in a manner seldom experienced in our industry.

# INVESTIGATIVE ENGINEERS ASSOCIATION EXPERTISE

I-ENG-A® of Central Indiana A Division of Veridus Group, Inc. has the ability to draw from the diverse resources of the Investigative Engineers Association network of forensic engineering firms. Additional expertise, when needed, is available through I-ENG-A® of Central Indiana A Division of Veridus Group, Inc. in the following disciplines:

AISC Steel Erection	Geosynthesis	RCRA Hazardous Waste
ANSI	Geotechnical	Recreation Centers
API	Grading Issues	Refrigeration Systems Design
ASME	Ground Water/Storm Water	Regulatory Technician
ASTM	Hazardous Waste and Nonhazardous Waste	Replacement Costs
AWS	Health and Safety (CIH)	Reservoirs
AWWA	Heavy Equipment Failure Analysis	Risk Management/Risk Analysis
Acoustic Emission	Gun Design	Road Construction
Analytical Chemistry	High Voltage Transmission and Power Generation (Commercial, Residential and Industrial)	Road Geometrics
Architectural Design and Design Practices	Highway and Work Zone Safety	Roof Systems
Asbestos	Household Appliances Fire Investigation	Safety Belt Usage
Biochemistry and Bioinstrumentation	Human Factors (Accident Reconstruction)	Sanitary
Blasting	HVAC Design	Security
Bridges and Roadways	Hydraulics and Hydrology	Septic Failures
Burner Malfunctions	HVAC&R Mechanical Systems	Sick Building Syndrome
Building and Land Surveying	Hydrogeology (Geologist)	Site Design
CERCLA RI/FS Investigations	Indoor Air Quality (CIH)	Slip and Fall Analysis
Building Codes and Contract Administration	Industrial Power Systems	Slope Stability
Chemical and Nuclear Waste Issues	Industrial Hygiene (Mold, Fungi, Bacteria)	Soils and Geologic Investigations
Civil Engineering	Industrial Safety and Operation	Sprinkler and Fire Suppression System
Computer Based Analytical Methods	Landfills	Sprinkler Discharge
Concrete Failures	ISO14001	SSPC Industrial Painting
Construction Defects	Leaks	Steel and Wood-framed
Code Interpretation	Levees	Support Structures
Controls System Engineering and Construction	Lightning Damages/Determination	Storage Process Tank Inspectors
Crane Collapse	Liquid Penetrant	Storm Water
Dams	Litigation Support	Structural Engineering
Construction Practices and Safety	Low Voltage Distribution Systems	Structural Fire Investigation
Design	Machining and Machine Design	Surveying
Dikes	Magnetic Particle	Surveying Disputes
Drainage	Materials of Construction	Tanks Testing Programs
Earth Movement	Materials Science	Traffic Accident Reconstruction
Eddy-Current	Mechanical Design/Failure	Traffic Accidents and Roadway Geometrics
Electrical Controls and Failures	Medical Instrument Design	Traffic Law
Electrical Fire Cause and Origin	Micromachining and Instrument Analysis	Ultrasonic
Electrical Injuries	Mining	UST/AST
Electrical Utility Power Systems	Moisture Surveys (Roofs, EIFS, Floors)	Utilities and Drainage
Environmental	Mold Investigation	Vehicle Fire Investigation
Environmental Management and Remediation	Mold Remediation Planning	Vehicular Mechanical Investigations
Failure Analysis (Mechanical/Civil)	NCE	Vessel and Pipe Rupture
FDM-Confining Space Entry and Rescue	Oil and Gas	Vibration
Fire and Arson Investigation	Paving	Visibility Concepts
Flooding/Flood Control	Pipelines	Visual Testing
Fluid Handling Systems	Post Office- Multiple Design	Waste Water
Footings	OHSA, ADA, Building Code Evaluations	Water Management
Foundation Failure	Product Failure/Liability	Water Quality
Structural Analysis	Project Management	Welded Fittings
Foundation Walls	Radiographic	Wind Storm Damage
Freeze-Ups	Railroads	Wind, Floor and Fire Damage Assessments
Gas Explosions		Wood Trusses
		Zoning and Planning

I-ENG-A® of Central Indiana a Division of Veridus Group, Inc.

Our investigative services extend to clients in all areas of insurance, loss, and loss mitigation. Typically, an assignment begins with a phone call, letter, fax or email from a potential client. During the initial client interview process, we request certain specific information relating to the case. Items such as the following may be discussed:

- Type of loss
- Date of loss
- Name and address of Insured
- Name and address of Claimant, if different
- Policy number
- Claim Number
- Name and telephone number of contact person at Adjuster's Office
- Estimated value of claim
- General outline of policy coverage

**Veridus Group, Inc.**  
has established an exceptional  
reputation for outstanding service  
by providing our clients with  
dedicated and skilled personnel  
committed to their work.

Additionally, we solicit other general information that may be available:

- Any records and documents already obtained or available
- Any pertinent information in Adjuster's file
- Circumstances of this loss

If no records or documentation are available from a client or adjuster, we may choose to prepare additional requests for data, directly to the parties involved, their representatives, or any associated insurance providers always copying our client on the communications. Depending on the circumstances, we may also contact the parties involved to arrange an appointment and begin the forensic investigation at the location of damage, loss, or accident.

If the client has obtained records and documents, we will request that they be forwarded to us. After examination, we will consult with the client to agree on the plan for the investigation.

1. **I-ENG-A® of Central Indiana A Division of Veridus Group, Inc.** will hold an initial discussion with you (the client) at no charge to validate the need for a case assignment.
2. When you offer the assignment, and we accept the assignment, we mutually agree on the initial phase(s) of the investigation, acceptable hours/charges (or not to exceed).
3. As we complete each phase of the assignment, we will provide you an oral report. You provide us with one of the following directions:
  - a. You decide no further analysis is required, and authorize our final billing.
  - b. You decide the analysis is complete, direct us to submit a written report, and authorize our final billing with submission of the report.
  - c. You decide to continue with the next phase of the assignment.
4. If you decide to continue the assignment, you may expect the following:
  - a. You have authorized us to proceed; we will formally acknowledge the assignment, and submit a final bill for the analysis.
  - b. With the bill, we will submit additional time/charge estimate for completing the next phase of the assignment and an amount of the deposit required to begin the phase.
  - c. During the assignment, we will provide you verbal progress reports at least every two weeks, and submit monthly progress billing.
  - d. When we complete the assignment, we will provide a complete verbal report, which we will formalize in writing only upon your authorization to do so.
  - e. We will submit a written report (if you have authorized one) and a final billing.
5. We will provide you with timeliness and the services of qualified experts through our direct staff, our substantial resources and those of the Investigative Engineer's Association. We will handle our assignments in a cost effective manner leaving you in control at all times.

## TIMOTHY M. JENSEN PE, LEED AP

MR. JENSEN IS THE PRESIDENT AND PRINCIPAL ENGINEER AT THE VERIDUS GROUP. HE HAS BEEN INVOLVED IN A NUMBER OF HIGH PROFILE PROJECTS THROUGHOUT HIS CAREER, INCLUDING LARGE MUNICIPAL PROJECTS, SUSTAINABLE MASTER PLANNING, LARGE CAMPUSES AND MIXED-USE COMPLEXES.

HE SPECIALIZES IN REPRESENTING PROJECT OWNERS IN COMPLEX PROJECTS. HIS CREATIVE, SUSTAINABLE APPROACH TO ISSUES ASSISTS CLIENTS THROUGH THE MOST DIFFICULT PROJECTS AND CIRCUMSTANCES. HIS GOAL IS TO "PROVIDE OWNERS WITH ALL OF THE INFORMATION REQUIRED TO MAKE INFORMED DECISIONS."

### REGISTRATION/CERTIFICATION(S)

Professional Engineer – IN, KY, OH, MO, CO  
Leadership in Energy and Environmental Design (LEED) Accredited Professional  
CPTED – Crime Prevention Through Environmental Design  
CPESC – Certified Professional in Erosion and Sediment Control  
INDOT LPA Certified  
Real Estate Broker - Indiana

### PROFESSIONAL TRAINING

ACEC Sustainable Communities  
LEED AP Building Design and Construction,  
Green Building Certification Institute (GBCI)

### EDUCATION

Bachelor of Science, Civil Engineering  
Purdue University, West Lafayette, IN

### PROFESSIONAL AFFILIATIONS

Urban Land Institute  
Indiana Society of Professional Engineers  
Indiana Association of Cities and Towns

### LAWRENCEBURG EVENT CENTER AND HOTEL – LAWRENCEBURG, IN

Veridus was hired by the City of Lawrenceburg to act as their owner's representative throughout the design and construction of the \$54MM event center and hotel project. Tim was the lead representative on the project and worked daily with City staff to bring the project to fruition. Opened in late 2014, the Event Center and Hotel are now an active part of the Lawrenceburg downtown, spurring other revitalization along the corridor. Veridus' involvement led to over \$3MM in savings to the City of Lawrenceburg.

### WITHAM HOSPITAL - LEBANON, IN

Tim and his team were hired by the hospital's construction manager to assist in the master planning and design of the entire 120+ acre campus in Lebanon, IN. The medical provider has major expansion plans over the next 5-10 years and Veridus was selected as the prime engineer for the existing and future work and is currently in the master planning phase for the project(s).

### FISHBACK CREEK INDUSTRIAL CAMPUS – WHITESTOWN, IN

Veridus was retained by GDI Construction to design and plan over 50 acres of industrial property including three buildings 500,000sf and larger. The project was complicated by floodplain issues and soft soils. Tim was the lead engineer through the master planning, utility and drainage design.

### MAINSTREET SENIOR LIVING AND CARE – VARIOUS LOCATIONS

Veridus was selected as the civil engineer for the Mainstreet Assisted Living and Skilled Nursing facility in Crawfordsville, Clarksville and South Bend, Indiana. Led by Tim, the Veridus team was responsible for all of the parking and circulation design as well as the grading, drainage and utilities across the sites. With Tim's background in construction, he provided valuable assistance to the owner with review of project budgets and potential alternate design savings.

### AVON LANDING – AVON, IN

Veridus was hired by the owner's representative to develop and design the layout, infrastructure and drainage for a 100+ acre mixed-use development. Avon Landing will include smaller industrial sites (100-200,000sf buildings), retail opportunities and multi-family housing. Tim leads the team in the development of the overall property and the individual site design for uses as property is sold.

## Kristopher Holeyfield PE

MR. HOLEYFIELD IS THE CIVIL STUDIO LEADER AT VERIDUS. LICENSED IN INDIANA AND TEXAS, KRIS BRINGS A PRACTICAL, BUT CREATIVE, APPROACH TO EVERY PROJECT. HE SPECIALIZES IN SITE DEVELOPMENT AND DESIGN AND EXCELS IN WORKING IN A COLLABORATIVE ENVIRONMENT. KRIS HAS WORKED ON PROJECTS ACROSS THE COUNTRY FROM 1 ACRE OUTLOTS TO 50 ACRE SCHOOL CAMPUSES, TO 100 ACRES MIXED-USE DEVELOPMENTS. HIS SKILLSET IS UNIQUELY SUITED FOR SITE DEVELOPMENT WORK.

### REGISTRATION/CERTIFICATION(S)

Professional Engineer  
IN PE11400550  
TX 109960

### EDUCATION

Bachelor of Science, Civil Engineering  
Texas A&M University, College Station, TX

### PROFESSIONAL AFFILIATIONS

Urban Land Institute (ULI)

### FISHBACK CREEK BUSINESS PARK - WHITESTOWN, IN

Kris served as the lead civil engineer and civil project manager for the design and construction of the Fishback Creek Business Park in Whitestown, IN. The project included a 500,000-sf building and parking lot improvements, utility extensions, and a complex drainage design. Teaming with GDI Construction, Veridus was able to design the detention system that not only provided stormwater quantity and quality, it met the compensatory storage requirements due to half of the site being located in the floodplain.

### BROWNSBURG HIGH SCHOOL - BROWNSBURG, IN

Kris lead the civil engineer team and provided project management for the design and reconstruction of the Brownsburg High School improvements. This project included building expansions, parking lot modifications, and utility relocations which all had to be phased separately due to the work being done during school hours. The phasing portion of the project required Kris and the design team to take a new approach at typical utility and drainage design. Kris' team helped design underground detention with the option to expand. Kris' team also worked closely with the building MEP to ensure existing utilities to the school remained in service during construction.

### ROCKLANE CHRISTIAN CHURCH – GREENWOOD, JOHNSON COUNTY, IN

Kris served as the lead civil engineer and project manager for the Rocklane Christian church expansion project. The project included a sanctuary expansion, additional classrooms and bathrooms, parking lot improvements, and detention improvements. The team had to design around an existing septic system and leach field. The septic system needed to remain in place and function during and after construction. In addition, the perimeter drains to the leach field needed to tie into the new storm system due to the proposed construction removing the existing drainage system.

### MASTER STATION DEVELOPMENT – FISHERS, IN

Kris served as the lead engineer and civil project manager for the proposed building in the downtown Fishers Nickel Plate district off Maple St. Since the project was located in downtown Fishers, the size of the property and building brought complexity to the design. This project had same amount of utility connections you would find for an 8-acre site but only had less than a quarter acre to work with. Kris and his team were able to provide stormwater detention, stormwater quality treatment, a 1,500-gallon grease trap, an 8-ft x 8-ft electric transformer pad, fire hydrant, fire department connection, and a 10-ft x 12-ft dumpster enclosure on a site in which the building and parking took up 90% of the land area.

# NATIONAL CLIENTS LIST

The Investigative Engineers Association (I-ENG-A®) network has worked with most major insurance companies since its inception in 1991. Following is a list of many of the companies who have used our services. If you require further information, please email your request to [info@ienga.com](mailto:info@ienga.com).

AAA	Continental	Hamilton Farmers' Mutual	Parkway Insurance
Acuity, Inc.	Continental Western Group	Hanover Insurance Company	Peerless Insurance
Adjusters International	Corporate Claims Management	Harbin Adjusters	Pekin Insurance

## Request for Taxpayer Identification Number and Certification

**Give form to the  
requester. Do not  
send to the IRS.**

Print or type  
See Specific Instructions on page 2.

Name (as shown on your income tax return) <b>Veridus Group, Inc.</b>	
Business name, if different from above	
Check appropriate box: <input type="checkbox"/> Individual/Sole proprietor <input checked="" type="checkbox"/> Corporation <input type="checkbox"/> Partnership <input type="checkbox"/> Limited liability company. Enter the tax classification (D=disregarded entity, C=corporation, P=partnership) ▶ ..... <input type="checkbox"/> Exempt payee <input type="checkbox"/> Other (see instructions) ▶	
Address (number, street, and apt. or suite no.) <b>6280 N. Shadeland Avenue, Suite A</b>	Requester's name and address (optional)
City, state, and ZIP code <b>Indianapolis, IN 46220</b>	
List account number(s) here (optional)	

### Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on Line 1 to avoid backup withholding. For individuals, this is your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

**Note.** If the account is in more than one name, see the chart on page 4 for guidelines on whose number to enter.

### Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me), and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and
3. I am a U.S. citizen or other U.S. person (defined below).

**Certification instructions.** You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the Certification, but you must provide your correct TIN. See the instructions on page 4.

### General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

#### Purpose of Form

A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) to report, for example, income paid to you, real estate transactions, mortgage interest you paid, acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA.

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN to the person requesting it (the requester) and, when applicable, to:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income.

**Note.** If a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

**Definition of a U.S. person.** For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien,
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States,
- An estate (other than a foreign estate), or
- A domestic trust (as defined in Regulations section 301.7701-7).

**Special rules for partnerships.** Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax on any foreign partners' share of income from such business. Further, in certain cases where a Form W-9 has not been received, a partnership is required to presume that a partner is a foreign person, and pay the withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid withholding on your share of partnership income.

The person who gives Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States is in the following cases:

- The U.S. owner of a disregarded entity and not the entity,
